

Summary of Key Points

Analysis of Exit Destinations by County, Program Type, and Organization

For August 2018

C. Peraro Consulting, HMIS Administrator

The HMIS admin team completed analysis of client exit destinations from HMIS program discharge records for the month of August 2018 (n = 999). The analysis presents findings by county, over program type, and by org/program.

The summary tables show the total exits by destination category, along with permanent housing exit rates. Analysis also includes the total number of exits with unknown exit destination type along with the corresponding exit rates.

Key findings of the monthly reporting include:

- In aggregate, the PH exit rate for August was 48% with 482 of 999 exits leaving to PH destinations, representing a decrease compared to June (54%) and July (53%), but a marked improvement compared to August 2017 (33%).
- Of the 482 PH exits, both Rapid Re-Housing and Emergency Shelter programs exited 127 clients each to PH (26%), Homeless Prevention programs exited 120 clients to PH (25%), and Transitional facilities exited 83 clients to PH (17%).
- Street Outreach and Emergency Shelter project types should not be evaluated solely on exits to PH. Often, placements into institutional settings, transitional shelters, or residential projects are positive outcomes for these project types and the clients within.
- August PH rates descending by county were Hawaii (72%), Maui (54%), Oahu (45%), and Kauai (30%).
- Homeless Prevention and Rapid Re-Housing projects had the highest PH exit rates (96% and 88% respectively). Due to the inherent nature of these programs, however, one would expect that these rates be near 100%.
- The missing exit data rate increased again in August 2018 to 22% (217 clients with unknown exits), the highest rate in 2018. June's rate (12%) was the lowest. The missing exit rate first calculated in August 2017 was 34%. Oahu represented 85% of the missing total.
- Oahu and Maui had the greatest proportion of exits to unknown locations in August, with 26% (184 exits) for Oahu and 18% (28 exits) for Maui. ES and Outreach projects accounted for the majority of these exits.
- Oahu Street Outreach (63%) and Emergency Shelter (38%) had the highest rates of missing exit data in August.
