

Summary of Key Points
Analysis of Exit Destinations by County, Program Type, and
Organization
Neighbor Islands – Bridging the Gap

For July 2020

Ka Mana O Na Helu, HMIS Administration

The HMIS administrative team completed analysis of client exit destinations from HMIS Bridging the Gap program discharge records for the month of July 2020 (n = 318). This analysis presents findings by county, over program type, and by org/program.

The summary tables show the total exits by destination category, along with permanent housing (PH) exit rates. The analysis also includes the total number of exits with unknown exit destination type along with the corresponding exit rates.

Key findings of the monthly reporting include:

- In aggregate, the PH exit rate for July was 61%, with 194 of 318 exits leaving to PH destinations, a decrease compared to June 2020 (71%), but above BTG’s average PH exit rate (56%) over the last 11 months. This is the period that BTG data tracking has been separated from PIC programs; the combined statewide average PH exit rate was 54% from July through August 2019.
- Of the 194 exits to PH, Homeless Prevention programs exited 94 clients to PH (48%), Transitional programs exited 27 clients to PH (14%), Emergency Shelter (ES) exited 24 clients to PH (12%), Rapid Re-housing programs exited 23 clients to PH (12%), Street Outreach exited 19 clients to PH (10%), and Permanent Supporting Housing exited 7 clients to PH (4%).
- July PH exit rates descending by county were Kauai (78%), Maui (72%), and Hawaii (43%).
- The PH exit rate was 97% for Homeless Prevention programs in July and 100% for Rapid Re-housing programs; both rates are the same as in June. The average PH rates for 2019 were 92% for Homeless Prevention and 84% for Rapid Re-housing programs. Due to the inherent nature of these programs, one would expect that these PH exit rates be near 100%.
- The missing exit data rate for July was 9%, a three-percentage point increase compared to June, but below the average rate for the past 11 months (12%).
- Maui had the greatest number of exits to unknown locations in July (23 exits) followed by Hawaii, with 6 exits to unknown locations. Kauai had one exit missing a destination.
